

E-Mobility Power Solutions

Features:

- ◆ DC-DC input range: 65-800VDC
OBC input range: 85-264VAC
- ◆ Up to 4.2KW peak power for on-board DC-DC converter and 11KW for on-board chargers
- ◆ Parallel operation for higher power
- ◆ UDS bootloader, diagnostic optional
- ◆ Customized CAN communication optional
- ◆ IP67 rating, liquid or forced air cooled
- ◆ J1939 communication, bootloader diagnostic optional
- ◆ Low profile
- ◆ Active power factor correction, PF>0.95
- ◆ Compliance with SAE J1772
- ◆ Intelligent charging
- ◆ Full set of protection features
